Subject: RE: Interaction with AltEn cleanup

Mr. Corbin:

Thank you for your inquiry and the Perivallon Group's interest in the clean-up at AltEn. EPA and NDEE continue to coordinate about the response activities at the AltEn facility. EPA is currently processing a FOIA, the scope of which includes written documents between EPA and NDEE, for the period February-September 2021. You can review that request [here](#) and we can let you know when releasable documents for that FOIA are produced. You may already be aware that an earlier FOIA request also included documents shared between EPA and the state, and it can be found on FOIAonline at this [link](#).

Again, thank you for your interest.

Curtis Carey, Ph.D. | Public Affairs Director
U.S. Environmental Protection Agency
Region 7 (Iowa, Kansas, Missouri, Nebraska, & Nine Tribal Nations)

Subject: Interaction with AltEn cleanup

The attached Nebraska Department of Environment and Energy document makes reference to "EPA's input on the cleanup activities at the AltEn Facility." There is a group of people who meet weekly to discuss and monitor the situation at the AltEn property and surrounding area. We are called the Perivallon Group. We are happy that the EPA is being consulted.

I can't find anything about the input that the EPA gave to NDEE. Can you please provide the Group with any written documents that the EPA has sent to NDEE or ask NDEE to make sure such documents are posted on their AltEn website?

Thank you.

P.S. I have been maintaining a webpage with information about AltEn.

David Corbin, Perivallon Group member
